

# REDSYS MANUAL

---

Versión 1.3

Alberto González de Dios

11/3/2013

## INSTALLATION

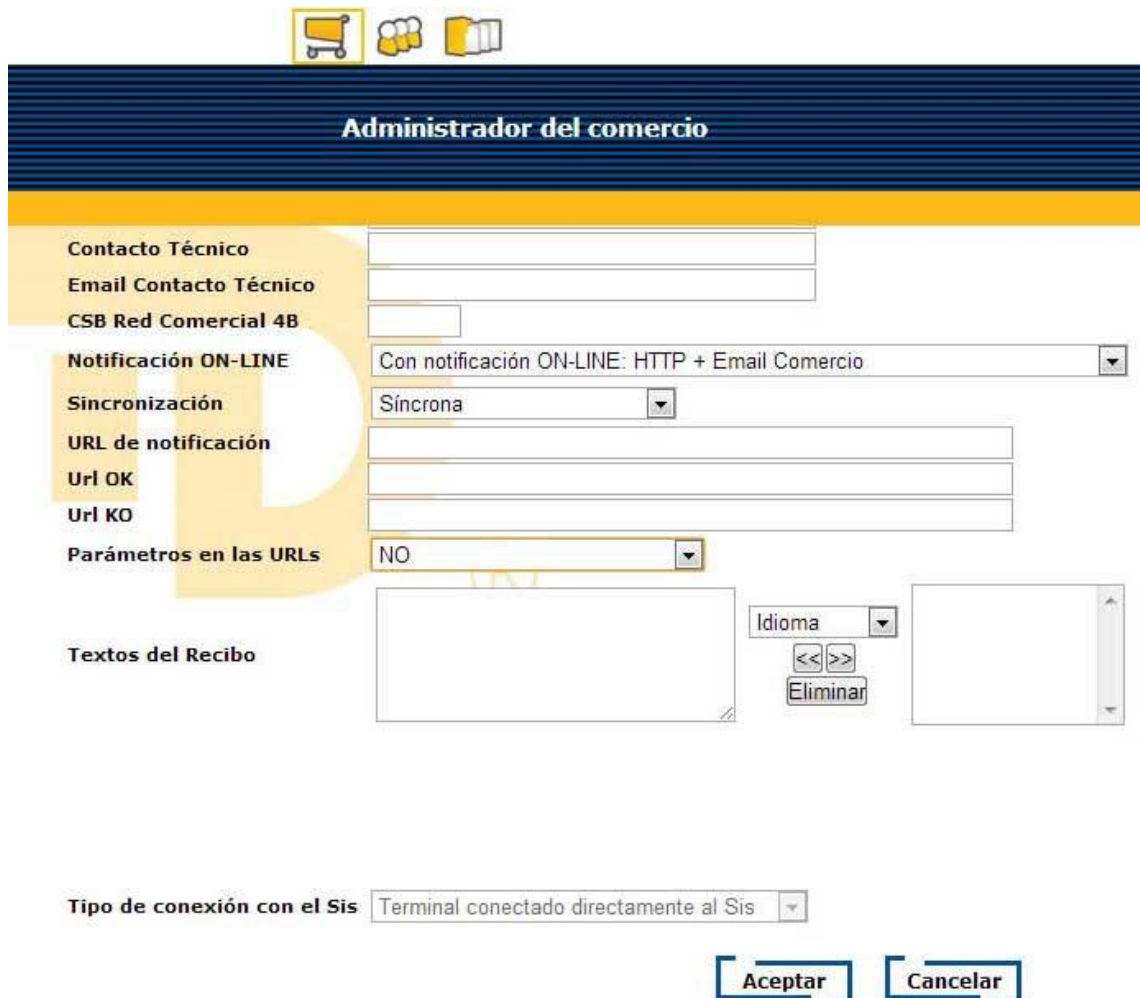

- 1) Upload the files from the upload folder to opencart
- 2) Log into your admin account, go to Extensions > Payment, then install Redsys.
- 3) Edit Redsys module and configure your Redsys account data: (ID Merchant, Terminal, Password):

Redsys	
* ID Merchant:	<input type="text"/>
*Terminal:	<input type="text"/>
*Password:	<input type="password"/>
Signature:	Extended Complete SHA-1 <input type="button" value="v"/>
Test Mode:	Yes <input type="button" value="v"/>
Process orders when payment has failed	No <input type="button" value="v"/>
Completed Payment:	Processing <input type="button" value="v"/>
Failed Payment:	Failed <input type="button" value="v"/>
Send order error mail to customer when payment has failed:	No <input type="button" value="v"/>
Send order error mail to store owner when payment has failed:	Yes <input type="button" value="v"/>
Geo Zone:	All Zones <input type="button" value="v"/>
Status:	Enabled <input type="button" value="v"/>
Sort Order:	<input type="text" value="1"/>

- 4) Go to admin panel. In System, go to Settings. Edit your store, and go to Mail. Activate the option "New Order Alert Mail".

## REDSYS CHANNEL CONFIGURATION

- 1) To edit test mode configuration, go to: <https://sis-t.redsys.es:25443/canales/>
- 2) Configure “Notificación ON-LINE: HTTP”. If you want to also receive confirmation emails, select “ON-LINE: HTTP + Email Comercio”

The screenshot displays the 'Administrador del comercio' (Commerce Administrator) web interface. At the top, there are three icons: a shopping cart, a group of people, and a document. Below the title bar, the configuration is organized into a sidebar on the left and a main content area on the right.
